Aurora Cannabis Increases Ownership Interest in Radiant Technologies

Funds to be Used for Expansion of Radiant Facility and Operations

Vancouver, BC & Edmonton, AB – December 4, 2017 – Aurora Cannabis Inc. (“Aurora”) (TSX: ACB) (OTCQB: ACBFF) (Frankfurt: 21P; WKN: A1C4WM) and Radiant Technologies Inc. (“Radiant”) (TSX-V: RTI) today announced that further to the investor rights agreement between both companies, as announced on November 6, 2017, Aurora will make a further investment in Radiant for a total of \$12 million.

The strategic investment is structured as follows:

- Exercise of all 15,856,321 common share purchase warrants of Radiant currently held by Aurora for total proceeds of \$5.8 million
- Investment through a private placement (the ‘Placement’) in units consisting of one common share of Radiant and one common share purchase warrant. Units are priced at \$1.37. Each warrant gives Aurora the right to purchase one common share of Radiant for \$1.71 for a period of 24 months following closing of the placement. Aurora will be purchasing 4,541,889 units for total proceeds of \$6.2 million.

The placement is subject to the receipt of all necessary approvals, including the approval of the TSX Venture Exchange. All securities issued in connection with the Offering are subject to a statutory four-month hold period. Upon completion of the investment, Aurora will have increased its position in Radiant from 8.8% to 19.18% on an undiluted basis (15.87% on a diluted basis).

Radiant intends to use the proceeds from the financing to accelerate plant capacity expansion and increased throughput at its Edmonton facility, the purchase of land adjacent to this facility for further expansion, including preparations for the broadening range of extraction-based cannabis products that are expected to be permitted under the new Cannabis Act, as well as for working capital purposes.

“With multiple Aurora facilities coming online and ramping up production in the coming quarters, as well as the anticipated export of cannabis oils and preparations for the legalization of adult consumer use in Canada, Radiant’s planned expansion positions both companies exceptionally well to accelerate revenue growth,” said Terry Booth, CEO of Aurora. “This investment reflects our strategy to build a constellation of vertically integrated partners and subsidiaries, and we look forward to jointly pursuing further expansion of market share in this exciting space.”

Denis Taschuk, CEO of Radiant, added “This investment by Aurora, our cornerstone customer and investor, enables us to more rapidly reach capacity, yield, and throughput levels that will meet Aurora’s needs, including the potentially large opportunity presented by CBD from hemp. With this investment, Radiant will be well-

positioned to become the leader in its segment of the cannabis supply chain, while further strengthening a relationship that has been very beneficial in terms of market recognition, operational expansion and shareholder value creation.”

About Aurora

Aurora's wholly-owned subsidiary, Aurora Cannabis Enterprises Inc., is a licensed producer of medical cannabis pursuant to Health Canada's Access to Cannabis for Medical Purposes Regulations ("ACMPR"). Aurora operates a 55,200 square foot, state-of-the-art production facility in Mountain View County, Alberta, known as "Aurora Mountain", a second 40,000 square foot high-technology production facility known as "Aurora Vie" in Pointe-Claire, Quebec on Montreal's West Island, and is currently constructing an 800,000 square foot production facility, known as "Aurora Sky", at the Edmonton International Airport, as well as is completing a fourth facility in Lachute, Quebec through its wholly owned subsidiary Aurora Larssen Projects Ltd.

In addition to Aurora's investment in Radient, Aurora is in the process of completing an investment in Edmonton-based Hempco Food and Fiber for an ownership stake of up to 50.1%. Furthermore, Aurora is the cornerstone investor with a 19.9% stake in Cann Group Limited, the first Australian company licensed to conduct research on and cultivate medical cannabis. Aurora also owns Pedanios, a leading wholesale importer, exporter, and distributor of medical cannabis in the European Union, based in Germany. The Company offers further differentiation through its acquisition of BC Northern Lights Ltd. and Urban Cultivator Inc., industry leaders, respectively, in the production and sale of proprietary systems for the safe, efficient and high-yield indoor cultivation of cannabis, and in state-of-the-art indoor gardening appliances for the cultivation of organic microgreens, vegetables and herbs in home and professional kitchens. Aurora's common shares trade on the TSX under the symbol "ACB".

About Radient

Radient extracts natural compounds from a range of biological materials using microwave assisted processing ("MAP™"), a patented technology platform which provides superior customer outcomes in terms of ingredient purity, yield, and cost. From its 20,000 square foot manufacturing plant in Edmonton, Alberta, Radient serves market leaders in industries that include cannabis, pharmaceutical, food, beverage, natural health, personal care and biofuel markets.
